

CHEMGROUT 050M HAND PUMP

ADA WOULD LIKE TO INTRODUCE YOU TO THE CHEMGROUT 050M HAND PUMP

The 050 Hand Pump is a great addition to your installation crew's toolbox, its hand operated and great for filling voids between door frames and openings.

The ChemGrout model CG-050M is a portable, skid mounted, hand operated grout pump. The lightweight aluminium design makes this grout pump perfect for smaller jobs. This unit features a 18l holding hopper and a piston pump. The holding hopper is connected directly to the suction of the pump for a continuous pumping operation. The grout pump is a 50mm positive displacement manually powered pulsating piston pump. The system disassembles without any tools for a fast and efficient cleaning. The pump comes complete and ready to use with a free 3.8m grout hose and a set of spare piston cups.

APPLICATION

Marine/underwater, door frames, window frames, hollow metal filling, precast, machine base, under sealing, slab raising, and well encasements.

STANDOUT FEATURES:

- Up to 10l/m flow rate
- Supplied with a 3.8m hose
- Light weight (under 25kg)
- Fits through doorways
- Easy to clean, no tools required

NOTE:

This unit has two powered options:

1. Pneumatically Operated (Compressor not supplied)
2. Hydraulic Operated - (Power pack not supplied)
